Miron

Thank you for your note. It could be interested if the listing is quick. Can we pls arrange to receive diligence materials? May I forward your email internally and to potential interested parties?

Subject: New Opportunity High Importance!!

Dear Herr Reedstein:

I have a client who is the 95% shareholder of a Swiss entity "AmeriMark Group AG" with a strong operating subsidiary in the United States. The underlying company has strong earnings and we anticipate being able to have newly issued shares listed admitted to trading on the Euronext access. Timothy Lafoux of Euronext Market Services has indicated that they would accept new shares from the merged entity an invited us to apply as a direct listing as no listing sponsor would be required in that case.

We have several issues to address:

Item I. Bendura Bank the company's transfer agent in Liechtenstein does not want to deliver shares to accounts from U.S. persons unless they have banking and brokerage relationships in Europe or EFTA. The company has 20 such shareholders and so this is difficult and time consuming to do and might not even be possible. We had intended to use nominee shareholders alreadybut now the timing is urgent.

Item II. We need to raise capital perhaps EU 200,000 as a loan or

Fwd: Re: New Opportunity High Importance!!

committed credit line to continue the listing efforts- listing efforts have been ongoing for two years and U.S. shareholders have exhausted their resources.

Item III. We will need to deal with the proceeds of future share sales by the U.S.

persons shareholders. Any introductions to your banking relationships will prevent problems going forward for the shareholders.

Item IV. We need to move very quickly. We will ask BankM and Badner if they will under transfer agent services and need a solution before that.

Because White Tree has already made some small loans to the company you might approach them about additional investment.

I am available to discuss today if needed.

Mit freundlichen Grüßen

Miron Leshem
